

TR66 OPTION T3010B KIT SPIKER UPDATE

This bulletin details the parts contained in the T3010B KIT. This kit contains 4 spiker blades and 11 spacer tubes, which allows the original spiker assembly of 9 spiker blades to be increased to 13 blades. To fit this kit it is necessary to remove the spiker assembly from under the machine.

WARNING! Before commencing any work on the machine, raise unit to a suitable working height, secure with chains and/or blocks while working underneath or around unit.
