

TRU-TURF
ROLLING PERFECTION

RB48

Golf Greens Roller

Designed in Australia.
Manufactured in USA.

WE'RE CHANGING THE GOLFING LANDSCAPE. AGAIN.

Built from the ground up for performance, safety and durability, the RB48 is Tru-Turf's **workhorse**. Its dual rolling heads utilises Tru-Turf's **patented offset rollers** to roll a 48" (1200mm) swath in a single pass.

While other greens rolling machines rely on weight to heavily compress the playing surface, Tru-Turf lightweight rollers deliver **smoothness and trueness** without compacting the soil beneath, resulting in **healthier greens**.

LED Lights can be added as an optional attachment. **Optional quick release attachments include Slicer, Spiker and Brush** to increase the productivity of the roller.
