

RB70

Golf Greens Roller

WE'RE CHANGING THE GOLFING LANDSCAPE. AGAIN.

With **three patented offset rolling heads**, the RB70 boasts a 70 inch rolling swath to reduce rolling time and increase productivity.

While other greens rolling machines rely on weight to heavily compress the playing surface, Tru-Turf lightweight rollers deliver **smoothness and trueness** without compacting the soil beneath, resulting in **healthier greens**.

LED Lights can be added as an optional attachment.

**Designed in Australia.
Manufactured in USA.**
